

Early Childhood TEACHER

Chicago's Northwest Suburbs

Are you looking for an opportunity to have a positive impact on the development of children that lasts a lifetime?

In the first three years of life, children's brains are developing at lightning speed. Early Childhood Educators make a critical difference in how infants and toddlers develop motor, linguistic, social, emotional, and cognitive skills. As an Early Childhood Teacher, you will set the tone and pave the way for a child's continued learning – uncovering potential and opening doors for future success.

Children's Home + Aid offers teachers the opportunity to work as part of a comprehensive social services team that supports children in becoming life-long learners and supports parent and caregiver involvement in the education of their children. As an Early Childhood Teacher for 0-3 year olds, you will work collaboratively with a social services team that includes a Mental Health consultant, a Family Support Specialist, and a Dietician, all with the goal of addressing all aspects of your students' needs. If you are teacher who is focused on more than just ensuring children are "kindergarten ready", this might be the job for you.
